

DEVOPS MASTER COURSE

Progress Tracker and Evidence Workbook

Printable and editable tracking system for all 15 volumes

Edition	2026 Final Release
Curriculum	Volumes 1-15
Delivery	DOCX + PDF + Executable Repository

Professional learning, practical evidence, enterprise readiness.

How to Use This Workbook

1. Set the target dates and current status for each volume and part.
2. Record knowledge, practical and interview scores independently.
3. Link or reference the evidence folder for each completed item.
4. Review progress weekly and record blockers and next actions.
5. Do not mark an item complete without validation and cleanup evidence.

1. Course Dashboard

Metric	Target	Current	Notes
Volumes completed	15		
Parts completed	As defined by course files		
Labs passed	150		
Knowledge average	>= 75%		
Practical average	>= 75%		
Interview rating	Professional or Master		
Capstone score	>= 80%		

2. Volume-Level Progress

Vol.	Specialization	Status	Knowledge	Practical	Interview	Evidence	Review date
1	Linux and DevOps Foundations	Not Started					
2	Linux Administration, Shell Scripting and Troubleshooting	Not Started					
3	Git, GitHub and Collaborative Development	Not Started					
4	Networking, Web Infrastructure and Security Foundations	Not Started					
5	Python Automation for DevOps	Not Started					
6	Containers and Docker Engineering	Not Started					
7	Kubernetes Administration and Application Delivery	Not Started
